Concealed Shower Solutions

Concealed bath and shower faucet for the bathroom can bring a sense of clean and modern, the only essential element may be exposed. Due to the shallow mounting depth, and with a variety of single-handle or thermostat operation selection, dark shower boxing is to achieve the perfect solution for a most common operations. Once the installation is complete, the body can be dark and dark-mounted faucet-mounted kit complement each other. Dark-mounted components with a wide range of design and high grid Shower Series match, due to the design theme and dark-mounted mutually compatible, so you can choose in the future.
